## Presentation

Comparative and International Education (CIE) is a field of Education Sciences which is present in the best universities. It is an area of study with greater tradition in Anglo-Saxon countries. This new educational offer of Universidade Lusófona de Humanidades e Tecnologias occupies an empty place due to the absence of specialised training in the field of CIE in Portugal and in Portuguese-speaking countries. It has a highly motivated (and qualified) teaching staff in the issues of CIE, which will contribute to the relevant training of a new profile of education professionals. This Master programme thus aims to foster an in-depth understanding of the factors that contribute to the development and trajectories of education systems in different parts of the world. In students it develops the research skills necessary to understand, compare and critically assess the education policies and practices that characterise the education processes involved.

# STUDY PLAN

## 1st Year / Common Core

1º Semestre	ects	2º Semestre	ects
Education for All, Human Rights and Global Citizenship	5	Accreditation, monitoring and evaluation of education systems	5
Introduction to CIE: History and Issues	5	Option II	5
