Presentation

This master program - Media and Information Literacy and Digital Citizenship- MILCitizen - focuses on particularly essential issues of today's mediated society, such as digital literacy, critical literacies, cross-media and as well as civic literacies. Based on a Humanist vision of the field and following the guidelines of UNESCO and the Council of Europe (COE), we use the UNESCO designation of MIL-Media and Information Literacy. The MIL concept is developed to bring together the dimensions of information, media and ICT or digital literacy (Frau-Meigs, O'Neill, Soriani & Tomé, 2017). Main area: Communication Sciences (321) Second area: Education Sciences (142) Maria José Brites - <https://www.cienciavita.pt/portal/en/0616-7E2E-4575> (Coordinator CV) Elisabete Pinto da Costa - <https://www.cienciavita.pt/portal/E41C-6D9D-F56B> (Coordinator CV)
