- 10 Geometria Descritiva and 12 História da Cultura e das Artes

Presentation

The Degree in Sustainable Fashion Design is unique in the national context. It is a degree that develops and promotes conscious fashion design. Its nature allows the trainee, on the one hand, to develop his work as a designer for an author's collection, for a brand or for the industry, while at the same time providing students with skills that allow them to think, prepare and carry out various activities that lead to the creation of sustainable fashion products, which reveal an important environmental concern. It is an innovative training at various levels of approach, at the structural and content level, at the organizational level and at the level of the faculty involved, as it has some big names in the Fashion Sector.
