Presentation

Management systems are fundamental to the sustainable success of organizations. The implementation and continuous improvement of management systems are essential for achieving operational excellence and stakeholder satisfaction. In a highly competitive market, training resources who can optimize organizational processes is essential. The Postgraduate Diploma in Integrated Organizational Management offers its participants a unique experience that combines professional experience with theoretical knowledge. Students who successfully complete the Module on Internal Auditing of Integrated Management Systems will receive a certificate as an Internal Auditor of Integrated Management Systems with the SGS Academy seal.
